There are sample sentences to show how the language is used. NCERT solutions for Class 10 English will help you write better answers in class 10 exams. Because solutions are solved by experts in the field. The times in short + sequence of times: 1. According to the verb verb sequence in the principal, the verb in the main clause follows. 2. There are two main rules of the sequence of times. Rule 1. If the verb in the main clause is at the time of or future, the verb in the subclau can be located at any time, time, in this sense; for example: Rule 2. If the verb in the main clause is in the past tense, the verb in the subclau must also be written in the appropriate past tense, for example: I knew it was telling a lie. He worked hard so he could move on. However, there are some exceptions to this rule. (i) If the verb in the subclau expresses some universal truth or ordinary action, it is always in the present tense, even if the verb in the main clause is in the past tense; for example: The old father told his sons that unification is strength. I'm sorry to hear that he's in a bad mood. (ii) If a verb in a subclau is entered by a comparison-than combination, the verb can be any time, even if there is a past tense in the main clause, for example: She liked it more than you liked. He helped us more than he helps his relatives. Note 1. If the comparison is expressed by as well as than, the same principle is good. After each time, any time may follow, according to the meaning intended by the speaker. For example, He likes you as he liked me. He will like you as well as he liked me. Note 2. If the verb is not expressed after than or after as, the verb understood in the principal is the same as the verb expressed in the main clause. For example, He liked you better than (liked) me. He will like you as well as (will) want me. Note 3. The word lest is no. The only auxiliary verb that can be used after lest is the time that a verb can be in the main clause. For example, (iii) If a child clause is the proverbial place or cause clause, the sequence of times can be at any time according to implied tension/meaning, for example: Failed because it has poor health. Rule 3. Conjunctions as if and as if they were always in a sub clause, regardless of the time in the main clause, for example: It speaks as if it were crazy. He worked as if he were a giant. Fill in the blanks with the correct verb form in parentheses. Question 1. (a) We (go) to Guwahati via Rajdhani Express last month. b) Rajdhani train be a fully air-conditioned train. c) It's (provide) food, cold drinks, water and blankets at night. d) Journey (be) cool.
